This class will be offered In-person at ArtSpace, 9 Park Street in **Milton**. Go to MiltonArtsGuild.org for registration and payment. All materials are included in the cost of the class.

Students will use sublimation to create a design using special markers and/or paints...or color a design from a varied selection of coloring pages supplied by the instructor. Participants will then attach their creations permanently onto a reusable tote using high heat and pressure.

Students will learn:

What is sublimation?

Why does this technique not fade, peel, or crack on the items to which it is applied?

To which materials can sublimation be applied, which it cannot, and why.

The difference between equipment and techniques needed for professional sublimation and a less expensive approach which can be used at home.
